

The third installment in a wide and deep constructive theology for our time. This third volume of Veli-Matti Kärkkäinen's ambitious five volume theology project develops a Christian theology of creation and humanity (theological anthropology) in dialogue with the Christian tradition, with contemporary theology in all its global and contextual diversity, and with other major living faiths -- Judaism, Islam, Buddhism, and Hinduism. In constructing his theology of creation and humanity, Kärkkäinen uniquely engages the natural sciences, including physical, cosmological, and neuroscientific theories. He devotes particular attention to the topics of divine action in a world subjected to scientific study, environmental pollution, human flourishing, and the theological implications of evolutionary theory -- with regard to both cosmos and humanity.
