

All of the Made Easy brief books integrate the learning of word processing with the proper formatting of business documents, language arts reinforcement, vocabulary building, and critical thinking practice. Four levels of business-oriented activities ensure readers get all the practice they need, and the four-color format and plentiful use of screen captures keep readers focused and on track. Covers the creation and editing of business documents such as memorandum and business letters; working with tables, resumes, newspaper and parallel text columns; creating reports and special documents such as form letters, mailing lists, mailing labels, letterhead, fliers, and newsletters; and using desktop publishing.
