

Steve Jobs Biography - Leader Of The New Century There's no denying how influential Steve Jobs is to the modern world. He left a legacy that is definitely of major significance to a lot of people. When people hear his name, most equate it with success. The story of his life is not one of smooth, continuous climb to the top. Rather, it is a story of a man who had the aptitude but wasn't sure which direction to take. It involved experimentation, failure, and success. He eventually figured it out and paved the way for digital revolution. His death was grieved all over the world but he left it with an undeniably great contribution. "Sometimes life hits you in the head with a brick. Dont lose faith. Im convinced that the only thing that kept me going was that I loved what I did. Youve got to find what you love. And that is as true for your work as it is for your lovers. Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do. If you havent found it yet, keep looking. Dont settle. As with all matters of the heart, youll know when you find it. And, like any great relationship, it just gets better and better as the years roll on. So keep looking until you find it. Dont settle." – Steve Jobs
